SUMMARY

I am a front-end developer seeking a challenging position to utilize my skills in HTML, CSS, and JavaScript. My educational background in Multimedia and Animation, combined with hands-on experiences in graphic and UI/UX design, equips me to create visually appealing and functional web applications. I am dedicated to delivering high-quality code and eager to learn advanced development practices. Motivated and detail-oriented Backend Developer with a strong foundation in Java and SQL. Passionate about designing efficient server-side applications, optimizing database performance, and ensuring system scalability. Seeking an opportunity to apply my skills in backend development and contribute to building robust and secure applications
